

Bundled Report Program

Buy More, Save More - Now through May 31, 2019

The HealthFocus Global Trend Database is an extensive, in-depth resource across multitudes of wellbeing related topics. The HealthFocus Report Library has a wide-ranging array of strategic and insightful topic reports and comprehensive Country Reports all available immediately.

For a limited time, this Bundled Report Program allows clients to access critical and time-sensitive data at a discounted price. The more you buy, the more you save!

How the Program Works

Purchase reports from the list of 37 total to the right. More reports purchased equates to greater savings for you and your colleagues. See discount table below.

To see a detailed outline of any report or to order your customized report package, contact info@healthfocus.com.

Reports Purchased	Company-wide Discount
